

NEW FOR 2009

JOIN THE BIVVY REVOLUTION

Designed and manufactured in Britain, for the worst (and best!) British weather, the new GREYS TORSION BIVVY SYSTEM offers the ultimate in stability, protection and flexibility.

The patented 'Spyda Wynda' mechanism at the heart of the TORSION enables it to be erected in less than a minute and tensions the anodised Aerospace aluminium arms and high performance Climatex cover like no other bivvy.

If you want the ultimate in design, quality and credibility the new Greys Torsion Bivvy System is as good as it gets.
