

IT'S NOT JUST WOMEN THAT  
ARE GREAT AT MULTI-TASKING

Invest in a G-Mag and you won't need another multiplier. It's one piece of world class engineering that can handle any job you ask of it. Clean or rough ground, beach casting and even light boat fishing, it won't let you down.

The super-smooth drag (tested up to 19lb) and unrivalled Fighting Power Ratio give you total command when playing fish. And the precision in-board bearings, with both magnetic and centrifugal braking, give you complete casting control. So whatever the sea throws at you – or vice versa – you need a G-Mag. Nothing else.
